

My Log Book

Log Book

On term 3 each year, Oz-tag is one of the sports selections in my school. Having played a lot of Oz-tag, I was wondering where the best place to play the ball and where to end up scoring the try. This led me to investigate more about this in NRL.

Each night, with the help of a teacher, I would record;

- Round of competition
- Team scoring and the opponent
- The time the try was scored
- Where the ball was played from the left-hand side and how far from the try-line in meters. This included tap ball, but not scrums, intercepts and abnormal plays
- Where the try was scored, from the left-hand side. This only counted where they crossed the try-line, not where they put the ball down.
- The type of try that was scored. These included:
 - DH-Dummy Half
 - MP-Multiple Passes
 - SP-Single Pass
 - BK-Bomb Kick
 - CK-Chip Kick
 - GK-Goal Kick
 - LB-Line Break

24/07/17

At the beginning of the term, 24th of July, while doing Oz-tag training, I wondered if there was a specific spot to play the ball so that it would allow my team to score a try. This led me to ask my teacher out of curiosity. That evening we decided to record data from the NRL Live App to show where the best place is to play the ball.

26/07/17

Beginning with the recent round, we recorded the information that I mentioned previously. As each night progressed, we would do one round a night and work our way backwards. We would go to the app, watch the halves, and fast forward to when the try was scored, and record the information. This happened on Mondays, Tuesdays, Wednesdays, Thursdays and Sundays.

Round	N/D	Team	Opponent	Time	PBx	Pby	TS	Type
